PROFESSIONAL SUMMARY

Power BI Developer with a proven track record designing enterprise dashboards, semantic data models, and KPI frameworks across large-scale Microsoft environments. Experienced end-to-end — from SQL validation and DAX measure development to stakeholder-facing visualizations and performance optimization — in Agile delivery environments. Actively pursuing DP-203 with focus on Microsoft Fabric and Direct Lake architecture.

PROFESSIONAL EXPERIENCE

Data Analyst / Project Manager Mar 2022 – Jul 2024
Ferguson Enterprises Inc., Remote

- Designed and maintained executive Power BI dashboards and KPI frameworks for senior leadership across financial and supply chain functions.
- Developed DAX measures and calculated columns to encode complex business logic and operational KPIs aligned to stakeholder requirements.
- Validated KPIs against source systems using MS SQL Server; optimized SQL queries and data models for performance and responsiveness.
- Led cross-functional data integration projects via Azure DevOps; participated in full Agile sprint lifecycle across multi-month delivery programs.

Senior Data Analytics Manager Nov 2024 – Jan 2025
Catalyzt Nutrition, Virginia Beach, VA

- Built semantic data models and dashboards from scratch; used Microsoft Copilot in Power BI to accelerate report creation and insight generation.
- Translated cross-departmental requirements into governed, scalable BI solutions with documented best practices and data access controls.

Smartsheet Administrator Aug 2023 – Feb 2024
SiteLogiQ, Remote (Contract)

- Enforced data access controls and governance policies directly analogous to Power BI row-level security implementation.
- Maintained documentation of data configurations and workflows to support governance, auditing, and knowledge transfer.

Supply Chain Analyst Aug 2024 – Nov 2024
Born Primitive, Virginia Beach, VA

- Built and maintained KPI scorecards (OTIF, SL, compliance) validated against source system records; performed data audits for operational accuracy.
