

Alexander Tobin

Data Analytics Engineer

(757) 289-1204 ♦ atobin@alum.utk.edu ♦ Virginia Beach, VA

CORE SKILLS

Advanced SQL — complex queries, joins, transformations, stored procedures, query optimization

Data modeling — dimensional design, silver/gold layer tables, fact/dimension, source-to-target mappings

Power BI · Tableau — executive dashboards, operational reporting, self-service BI

Cloud data platforms — Microsoft Azure (Synapse, Data Factory) · PostgreSQL · MS SQL Server

ETL/ELT pipeline design — ingestion, transformation, validation, quality monitoring

Data governance — accuracy standards, data definitions, lineage documentation, version control

Python · REST APIs · stakeholder communication

EDUCATION

Bachelor of Arts — Pre Law/Legal Studies, Business Concentration
University of Tennessee, Knoxville, TN — Aug 2019

CERTIFICATIONS

- ♦ DP-203: Data Engineering on Microsoft Azure (In progress)
- ♦ Google Analytics Certification
- ♦ Google Project Management Certification

PROFESSIONAL SUMMARY

Data analytics engineer with extensive SQL development experience, cloud data platform work, and end-to-end BI delivery for finance, operations, and executive stakeholders. Strong background in dimensional data modeling, silver- and gold-layer table design, ETL pipeline development, and translating business requirements into scalable, reliable analytics solutions. Experienced working directly with leadership in lean, high-impact environments to build data infrastructure from the ground up.

PROFESSIONAL EXPERIENCE

Freelance Developer & Data Analyst Contractor

Jan 2026 – Present

Self-Employed

- ♦ Designed and built production data platforms with structured PostgreSQL schemas, ETL transformation pipelines, source-to-target mappings, and quality monitoring at every ingestion point.
- ♦ Built Capitol Mirror — enterprise-scale data ingestion platform converting government filings into structured analytics; designed fact-style and curated reporting tables analogous to silver/gold layer architecture, with full governance documentation.
- ♦ Extracted and structured data via REST APIs and automated pipelines; validated data accuracy and resolved discrepancies before surfacing to end users.

Senior Data Analytics Manager

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ♦ Owned data architecture and analytics infrastructure — defined KPIs, built single source of truth for executive reporting, and maintained data definitions, metric documentation, and governance standards.
- ♦ Partnered with finance, operations, and executive stakeholders to translate business requirements into data models and reporting outputs; presented findings directly to C-level leadership.
- ♦ Automated recurring reporting workflows; ensured data accuracy and consistency across all outputs.

Supply Chain Analyst

Aug 2024 – Nov 2024

Born Primitive, Virginia Beach, VA

- ♦ Validated and reconciled multi-source datasets; identified and resolved cross-system data discrepancies with documented root-cause analysis and governance standards.

Data Analyst, Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ♦ Developed complex SQL queries, stored procedures, and views against large MS SQL Server enterprise databases supporting analytics and operational reporting.
- ♦ Designed and implemented ETL workflows on Microsoft Azure translating legacy data structures into curated, reporting-ready datasets; maintained source-to-target mappings and data lineage documentation.
- ♦ Built Power BI executive dashboards and self-service reporting adopted across Finance, Operations, and IT; defined dimensional metric frameworks and version-controlled specification documentation.

Ecommerce Data Analyst

Jan 2021 – Dec 2021

ZenEvo Chocolate, Knoxville, TN

- ♦ Wrote SQL queries to extract, transform, and validate operational data; developed data models and analytical reports supporting cross-functional decision-making.
