

# ALEXANDER TOBIN

SQL Developer · Data Analyst · Database Engineer

(757) 289-1204 · atobin@alum.utk.edu · Virginia Beach, VA

## PROFESSIONAL SUMMARY

Data analyst and SQL developer with 4+ years of experience writing complex queries, building data pipelines, and supporting production data systems in enterprise environments. Proficient in advanced SQL including CTEs, window functions, and analytical queries; experienced in MS SQL Server and Azure data environments. Actively expanding into PostgreSQL and cloud data engineering through certification coursework. Strong foundation in performance analysis, schema design, data validation, and cross-functional technical collaboration.

## CORE SKILLS

SQL (CTEs, Window Functions, Analytical Queries) · MS SQL Server / SSMS · Query Performance Analysis  
Schema Design & Data Modeling · Indexing Strategy · ETL / Data Pipeline Development  
Azure Data Engineering (DP-203, In Progress) · Azure DevOps · GitHub · Python  
Data Validation & Quality Assurance · Technical Documentation · Agile / JIRA

## PROFESSIONAL EXPERIENCE

### Freelance Developer & Data Analyst

Jan 2026 – Present

*Self-Employed*

- Designed normalized relational database schemas and multi-stage data pipelines with full CRUD operations, structured validation, error handling, and production monitoring.
- Built automated data ingestion pipelines with schema enforcement and data quality checks; maintained documentation of data flows, schemas, and integration logic.

### EDI Integrations Project Manager

Mar 2022 – Jul 2024

*Ferguson Enterprises Inc., Remote*

- Applied SQL against MS SQL Server databases to extract, validate, and analyze transaction data across complex integration workflows; wrote queries involving joins, aggregations, and multi-step filtering logic.
- Performed gap analysis and root-cause assessment on data failures; analyzed data flows end-to-end to identify mapping discrepancies and systemic data quality issues.
- Maintained schema-level documentation, process SOPs, and runbooks for EDI data constructs across multiple trading partner integrations.
- Collaborated with IT and application development teams on data model changes and integration requirements; participated in UAT and system integration testing.
- Tracked deliverables using JIRA and Azure DevOps in an Agile environment.

### Supply Chain Data Analyst

Jan 2021 – Dec 2021

*ZenEvo Chocolate, Knoxville, TN*

- Validated and transformed data from multiple sources; tracked KPIs and identified process improvement opportunities across Planning, Manufacturing, and Procurement.
- Produced analytical reports and collaborated cross-functionally with planning, procurement, and sales teams.

### Data Analyst Student Assistant

Nov 2014 – Dec 2019

*University of Tennessee*

- Developed SQL, Python, and Excel skills through applied data analysis work using Azure, MS Office Suite, and SAP.

## EDUCATION

### Bachelor of Arts — Pre Law/Legal Studies, Business Concentration

Aug 2019

*University of Tennessee, Knoxville, TN*

## CERTIFICATIONS

Google Analytics Certification · Google Project Management Certification · UVA Project Management Course · DP-203: Azure Data Engineering (In Progress)
