

ALEXANDER TOBIN

(757) 289-1204 ♦ atobin@alum.utk.edu ♦ Virginia Beach, VA

CORE SKILLS

Technology Leadership · Product Roadmap

Full-Stack Development · Python · APIs

AI Integration · Generative AI · Copilot

Databricks · Cloud Data Architecture

AWS · Azure · GCP

SQL · Advanced Data Modeling

React · Supabase · Vercel · CI/CD

Team Leadership · Engineer Mentorship

Executive Stakeholder Management

Business Solution Development

ETL / ELT Pipelines · Data Engineering

Agile / JIRA · Git · GitHub Actions

EDUCATION

Bachelor of Arts — Pre Law/Legal Studies, Business Concentration
University of Tennessee, Knoxville, TN — Aug 2019

CERTIFICATIONS

- ♦ DP-203: Azure Data Engineering (In Progress)
- ♦ Google Project Management Certification
- ♦ Google Analytics Certification

PROFESSIONAL SUMMARY

Technology leader and full-stack engineer with 7+ years of experience building enterprise data platforms, AI-powered applications, and scalable business solutions — from architecture through production delivery. Proven ability to lead product and engineering teams, design developer frameworks, and translate business requirements into technology roadmaps. Deep expertise in AI-assisted development, cloud infrastructure (AWS, Azure, GCP), Python, SQL, and modern data architecture. Track record of building and shipping production-grade products used by C-suite stakeholders and operational teams across multiple industries.

PROFESSIONAL EXPERIENCE

Freelance VP-Level Technology Consultant

Jan 2026 – Present

Self-Employed

- ♦ [callcathai.online](#) — Led full technology stack design and delivery: AI-integrated call analytics platform built on Databricks Medallion Architecture with automated alerting, data quality validation, and executive dashboard layer for C-suite visibility.
- ♦ [primelayertrades.com](#) — Architected and delivered enterprise-grade trading data platform with real-time pipelines, AI-assisted analysis workflows, cloud infrastructure on GCP, and executive KPI reporting used by leadership daily.
- ♦ [hereraspreadsheets.com](#) — Built reusable technology framework components including AI workflow automation, Python-based data pipelines, and real-time Power BI dashboards; coached client technical team on developer best practices and AI tool adoption.
- ♦ Delivered expert-level C-suite technology roadmaps, AI implementation strategies, and business solution architectures for client organizations across multiple industries.

Operations Manager / Technology Lead

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ♦ Led technology strategy and engineering delivery for a multi-location operation; oversaw development of data systems, AI-integrated analytics platforms, and operational tooling on GCP and AWS.
- ♦ Built and managed cross-functional engineering workflows; defined developer standards, CI/CD pipelines, and Git-based deployment practices across all technology deliverables.
- ♦ Designed and delivered AI-assisted reporting and decision-support systems for executive leadership; integrated Microsoft Copilot and Databricks AI Genie into production analytical workflows.
- ♦ Partnered with operations and business leadership to translate requirements into technology architecture and execution plans, serving as the primary technology voice at the executive level.

Data Analyst / Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ♦ Led technology-driven transformation of enterprise data infrastructure for a large-scale, multi-location ecommerce and supply chain operation; managed engineering delivery across Azure, GCP, and AWS.

Supply Chain Data Analyst

Jan 2021 – Dec 2021

ZenEvo Chocolate, Knoxville, TN

Data Analyst Student Assistant

Nov 2014 – Dec 2019

University of Tennessee
