PROFESSIONAL SUMMARY

Hands-on AI practitioner and technology enablement specialist with a track record of driving adoption of new platforms across cross-functional organizations. Deeply proficient in Anthropic Claude, Google Gemini, and emerging AI tooling — with real production experience building AI-assisted workflows, automations, and lightweight prototypes that demonstrate what's possible. Energized by teaching: able to meet employees at any proficiency level and translate complex AI capabilities into practical, role-specific workflows. Experienced project manager and internal consultant comfortable presenting to leadership, coordinating change across departments, and measuring adoption impact.

PROFESSIONAL EXPERIENCE

Freelance AI Developer & Automation Architect

Jan 2026 – Present

Self-Employed

- ♦ Designed and deployed production AI-assisted systems using Anthropic Claude and GitHub Actions — building autonomous pipelines, LLM-integrated workflows, and real-time data applications shipped to live users.
- ♦ Prototyped and delivered multiple lightweight tools using no-code/low-code and light-code approaches, documenting implementation notes and handoff materials for each.
- ♦ Hands-on daily practitioner across Claude, Gemini, ChatGPT, and Codex — deeply familiar with capabilities, limitations, and role-specific use cases across business functions.

Senior Data Analytics Manager

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ♦ Drove adoption of new digital tools and AI-assisted workflows across marketing, operations, and analytics teams — meeting employees at every proficiency level and building the training materials and process documentation that made adoption stick.
- ♦ Served as the internal go-to expert for automation and technology questions; translated platform capabilities into practical role-specific solutions for non-technical team members.
- ♦ Designed and facilitated team training on new Airtable workflows, automations, and dashboards; measured adoption through usage metrics and iterated on rollout approach based on feedback.
- ♦ Directed development of mobile application features and AI-assisted marketing workflows (email automation via Klaviyo, ad optimization).

Data Analyst / Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ♦ Led enterprise-wide adoption of Airtable as a centralized platform — ran structured pilots, gathered requirements from multiple departments, delivered training and onboarding documentation, and drove sustained behavior change across the organization.
- ♦ Partnered with department leads in Operations, Sales, Finance, and Logistics to identify workflow automation opportunities, prototype solutions, and embed AI-assisted tooling into real processes.
- ♦ Built Power BI adoption reporting and KPI dashboards; presented program progress and data insights to executive leadership.
