University of Tennessee, Knoxville, TN — Aug 2019

CERTIFICATIONS

- ♦ 15 Years Active Options Trading
- ♦ [primelayertrades.com](#) — Founder
- ♦ Google Project Management Certification
- ♦ Google Analytics Certification

TRADING EXPERIENCE

Founder & Lead Options Analyst

2020 – Present

[primelayertrades.com](#)

- ♦ Research, structure, and publish fully specified multi-leg options strategies across equities, ETFs, and index products; every idea includes underlying, structure, strikes, expirations, net debit/credit targets, entry/exit levels, maximum loss, adjustment triggers, and invalidation conditions.
- ♦ Specialize in short-premium and defined-risk structures — iron condors, credit spreads, calendars, diagonals, covered positions — with sizing rationale consistent with margin requirements and the trade's volatility regime.
- ♦ Apply IV rank/percentile, skew analysis, and term structure assessment to identify favorable risk/reward environments; maintain rigorous P&L; tracking and idea attribution to continuously refine the process.

Independent Options Trader

2011 – Present

Self-Directed

- ♦ 15 years of active options trading across equities, ETFs, and index products; deep command of pricing dynamics, volatility behavior, and multi-leg strategy construction built through direct market engagement.
- ♦ Disciplined, repeatable idea-generation process: defined-risk construction, systematic entry/exit rules, max-loss framing before every position, and mechanical adjustment protocols under Reg-T and portfolio margin.
- ♦ Fluency in the Greeks as live risk management tools — dynamic position monitoring throughout the life of every trade, not just entry-point reference values.

PROFESSIONAL BACKGROUND

Freelance Data Analyst & Consultant

Jan 2026 – Present

Self-Employed

- ♦ Deliver financial modeling, analytics infrastructure, and executive reporting for clients including [callcathai.online](#), [primelayertrades.com](#), and [hereraspreadsheets.com](#); quantitative rigor and written communication discipline applied directly to options trade idea development.

Data Analyst / Project Manager

Mar 2022 – Jul 2024

[Ferguson Enterprises Inc.](#), Remote

- ♦ Led financial analysis, P&L; reporting, and variance analysis for a multi-location ecommerce operation; reported to CFO, VP of Finance, and EVP of Sales; applied the same structured, evidence-based analytical framework that drives trade idea generation at [primelayertrades.com](#).
