

Alexander Tobin

Power BI Developer & Data Analyst

(757) 289-1204 ♦ atobin@alum.utk.edu ♦ Virginia Beach, VA

CORE SKILLS

Power BI — dashboard design, data modeling, DAX measures, self-service reporting, deployment and version control

SQL / MS SQL Server — complex queries, stored procedures, views, CTEs, data transformation and preparation

Data modeling — dimensional modeling, fact/dimension tables, curated reporting layers, source-to-target mapping

ETL pipelines — Microsoft Azure (Data Factory, Synapse); data ingestion, transformation, validation

AS/400 · RPG — data extraction and light development on IBM iSeries platform

Training & documentation — training report consumers, writing specs, version control

Python · PostgreSQL · advanced Excel · data quality assurance

EDUCATION

Bachelor of Arts — Pre Law/Legal Studies, Business Concentration
University of Tennessee, Knoxville, TN — Aug 2019

CERTIFICATIONS

- ♦ Google Analytics Certification
- ♦ Google Project Management Certification
- ♦ DP-203: Data Engineering on Microsoft Azure (In progress)

PROFESSIONAL SUMMARY

Power BI developer and data analyst with strong experience designing, building, and deploying Power BI dashboards and data models that support executive and operational decision-making. Expert in SQL — writing complex queries, stored procedures, and views to prepare, transform, and model data from enterprise source systems into clean, reporting-ready datasets. Experienced serving as the internal Power BI SME: training report consumers, documenting specifications, advising on best use cases, and translating complex data into clear insights for non-technical stakeholders. Background in Microsoft Azure data platforms, ETL pipeline development, and data governance practices.

PROFESSIONAL EXPERIENCE

Freelance Data Developer

Jan 2026 – Present

Self-Employed

- ♦ Designed and deployed data platforms with structured ingestion pipelines, curated reporting layers, and Power BI-style analytics interfaces — end-to-end from raw data through executive-facing dashboards.
- ♦ Built PostgreSQL-backed data models with fact-style and dimensional table design; wrote complex SQL transformation logic, validated data quality at every step, and maintained documentation in version-controlled repositories.
- ♦ Produced recurring and ad hoc reporting for client engagements; trained stakeholders on how to read and act on data outputs without analyst bottlenecks.

Senior Data Analytics Manager

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ♦ Served as the organization's Power BI SME and sole data resource — built dashboards and KPI frameworks from scratch, trained all report consumers, and documented every metric definition and data source for maintainability.
- ♦ Advised leadership on best use cases for data visualization; translated complex business questions into clear, accurate Power BI outputs consumed by C-level and department heads.
- ♦ Maintained the organization's data dictionary, KPI definitions, and version-controlled reporting specifications.

Data Analyst / Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ♦ Developed Power BI executive dashboards and KPI frameworks adopted across Finance, Operations, and IT; presented findings to senior leadership and drove data-driven decision-making across the organization.
- ♦ Built complex SQL queries, stored procedures, and views against large MS SQL Server enterprise databases; designed ETL pipelines on Microsoft Azure transforming raw operational data into curated, reporting-ready datasets.
- ♦ Maintained source-to-target mapping documentation, data lineage records, and governance standards across all reporting outputs.

Smartsheet Administrator

Aug 2023 – Feb 2024

SiteLogiQ, Remote (Contract)

- ♦ Built reporting workflows and data visualizations; maintained documentation of data configurations and process logic across platform integrations.
