

ALEXANDER TOBIN

Junior Application Developer | React · Python · PostgreSQL · REST APIs · Git

(757) 289-1204 | atobin@alum.utk.edu | Virginia Beach, VA

CORE SKILLS

React (React 18, hooks, Tailwind CSS, component architecture)

Python (scripting, automation, data processing, FastAPI-style backends)

PostgreSQL / Supabase — relational database design, SQL queries, REST APIs

REST API integration and data pipeline development

Git / GitHub — version control, CI/CD pipelines

JavaScript / TypeScript (basic to intermediate)

HTML5 | CSS3 — production-quality web fundamentals

Workflow automation and business process integration

Vercel / DigitalOcean deployment and CI/CD

AI-assisted development: Claude Code, Cursor, GitHub Copilot

Microsoft Azure | AWS

EDUCATION

Bachelor of Arts — Pre Law/Legal Studies, Business Concentration
University of Tennessee, Knoxville, TN — Aug 2019

CERTIFICATIONS

- Google Analytics Certification
- DP-203: Azure Data Engineering (In progress)

AWS Certified DevOps Engineer (In progress)

PROFESSIONAL SUMMARY

Full-stack application developer with hands-on production experience building internal business applications, integrations, and workflow automations using React, Python, PostgreSQL, and REST APIs. Genuinely curious about how systems connect to real business operations — I have built software used by real users, integrated live APIs, and designed solutions by starting with a deep understanding of the problem rather than a technology assumption. Hampton Roads local; excited by a role where the code runs on the production floor.
