PROFESSIONAL SUMMARY

AI implementation specialist and systems builder with hands-on experience building production Claude API integrations, custom Claude skill workflows, agentic AI pipelines, and end-to-end automation infrastructure. Track record of owning the full automation layer for organizations — identifying high-value opportunities, building the systems, and deploying them into live production. Experienced with HubSpot automation, multi-step LLM workflows, API integrations, no-code/low-code platforms, and the kind of prompt engineering that produces reliable, accurate outputs at scale. Equally comfortable with Python scripting, REST APIs, and visual builders — and skilled at building automation that the team can actually maintain.

PROFESSIONAL EXPERIENCE

Freelance Developer & AI Specialist

Jan 2026 – Present

Self-Employed

- ♦ Integrated the Claude API and Azure OpenAI across multiple production platforms — building custom AI agent workflows, automated content processing pipelines, LLM-powered analytics interfaces, and conversational data tools replacing manual operational processes.
- ♦ Built **Capitol Mirror** — AI-enabled SaaS with automated government filing ingestion, LLM-powered analytics interface, and Stripe subscription billing; designed, built, and shipped end-to-end.
- ♦ Built and deployed multiple production client websites (Next.js, Supabase, Vercel) with SEO and performance optimization: PrimeLayer Solutions, Kizuna Performance, CallCatch AI, Herera Spreadsheets.
- ♦ Developed branded collateral, brand voice documentation, and client-facing asset systems for contractor engagements.

Operations Manager / AI & Systems Developer

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ♦ Owned the full AI and automation layer for the organization — assessed every operational process, identified highest-value automation opportunities, designed solutions, deployed tools, and trained the team on adoption.
- ♦ Built HubSpot automation infrastructure: multi-touch sequences, lead routing, CRM hygiene standards, and deliverability workflows connecting marketing and sales operations.
- ♦ Built multi-step automation workflows connecting CRM, scheduling, and operational platforms through APIs and custom integrations; replaced manual hand-offs across marketing, logistics, and analytics.
- ♦ Managed brand collateral, marketing templates, and client-facing assets — maintaining consistency and quality across all outputs.
- ♦ Defined and delivered full Airtable enterprise application infrastructure — linked record architecture, automated workflows, and executive dashboards — adopted across the organization.

Data Analyst, Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ♦ Built data pipelines and automation workflows on Microsoft Azure; developed executive KPI dashboards and eliminated manual reporting processes.
