

Alexander Tobin

AI Workflow & Automation Specialist

(757) 289-1204 ♦ atobin@alum.utk.edu ♦ Virginia Beach, VA

◆ CORE SKILLS

AI agent development & LLM integration (Claude API, Azure OpenAI, ChatGPT API)

Workflow automation (Power Automate, Airtable Automations, Zapier, Python)

API & webhook integration — connecting SaaS business systems

HubSpot CRM · No-code/low-code (Airtable, Smartsheet, Power Platform)

Python scripting · Dashboard & operational reporting

Business process analysis — identifying and prioritizing automation opportunities

Microsoft 365 / Azure integration

◆ EDUCATION

Bachelor of Arts — Pre Law/Legal Studies, Business Concentration
University of Tennessee, Knoxville, TN — Aug 2019

◆ CERTIFICATIONS

- ◆ Google Project Management Certification
- ◆ Google Analytics Certification
- ◆ DP-203: Data Engineering on Microsoft Azure (In progress)
- ◆ AWS Certified DevOps Engineer (In progress)

◆ PROFESSIONAL SUMMARY

AI implementation specialist and systems builder with a track record of designing and deploying production AI workflows, connecting business systems through APIs and webhooks, and replacing manual operational processes with intelligent, scalable automation. Experienced working directly with business leadership to identify automation opportunities, build from a clean slate, and deliver production-ready solutions that generate immediate value. Equally comfortable with no-code platforms, Python scripting, and LLM API integration — and skilled at recommending where AI should lead vs. where humans should stay in the loop.

◆ PROFESSIONAL EXPERIENCE

Freelance Developer & AI Specialist

Jan 2026 – Present

Self-Employed

- ◆ Integrated Claude and Azure OpenAI APIs across production platforms — building AI agent workflows, conversational data interfaces, and automated content processing replacing manual operational processes.
- ◆ Built Capitol Mirror — AI-enabled SaaS with automated ingestion pipeline, LLM-powered analytics interface, and governance controls; shipped end-to-end from architecture through production.
- ◆ Built AdvisoryCloud 3.0 and Container Tracker — production platforms with AI-assisted workflows, live API integrations, and real-time operational dashboards.

Operations Manager / Systems Developer

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ◆ Led end-to-end AI and automation implementation across the organization — assessed processes, identified highest-value opportunities, designed solutions, deployed tools, and trained teams on adoption.
- ◆ Built automation infrastructure from scratch: multi-step workflows, API integrations connecting CRM and operational platforms, and data pipelines replacing manual hand-offs across marketing, logistics, and analytics.
- ◆ Defined and delivered full Airtable enterprise application infrastructure — linked record architecture, automated workflows, and executive dashboards — adopted across the organization.

Data Analyst, Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ◆ Led cross-functional technology implementation projects; evaluated tools, defined requirements, and drove company-wide adoption of new platforms.
- ◆ Built data pipelines and automation workflows on Microsoft Azure and MS SQL Server; developed executive KPI dashboards and automated manual reporting.
- ◆ Managed API/webhook-based EDI integrations and vendor onboarding to B2B platform.

Smartsheet Administrator

Aug 2023 – Feb 2024

SiteLogiQ, Remote (Contract)

- ◆ Built automated workflows using Python, C#, and Java; maintained API integrations and platform documentation.
