

Alexander Tobin

AI Developer & Enterprise AI Specialist

(757) 289-1204 ♦ atobin@alum.utk.edu ♦ Virginia Beach, VA

◆ CORE SKILLS

LLM application development — Claude API, Azure OpenAI, ChatGPT API, RAG architecture, prompt engineering

AI agent development — autonomous multi-step workflows, agentic pipelines, copilot-style interfaces

Python scripting · REST APIs · JSON · data pipeline development

Microsoft Azure — Azure Data Factory, Azure Synapse, cloud data platform, AI services

Data engineering — ingestion, transformation, storage, modeling, ETL pipeline design

Business AI consulting — identifying use cases, educating stakeholders, facilitating workshops, measuring ROI

AI governance · Git/GitHub · CI/CD pipelines · PostgreSQL · production deployment

◆ EDUCATION

Bachelor of Arts — Pre Law/Legal Studies, Business Concentration
University of Tennessee, Knoxville, TN — Aug 2019

◆ CERTIFICATIONS

- ◆ DP-203: Data Engineering on Microsoft Azure (In progress)
- ◆ AWS Certified DevOps Engineer (In progress)
- ◆ Google Analytics Certification
- ◆ Google Project Management Certification

◆ PROFESSIONAL SUMMARY

AI developer and systems builder with hands-on production experience designing and deploying LLM-powered applications, agentic AI workflows, and enterprise automation pipelines. Strong background in Claude API and Azure OpenAI integration, prompt engineering, RAG architecture, and translating complex business problems into production-grade AI solutions. Experienced partnering directly with business leadership to identify high-value AI opportunities, design solutions, and drive adoption across organizations. Grounded in data engineering fundamentals, cloud platform work on Microsoft Azure, and the governance and documentation practices that make AI systems reliable at scale.

◆ PROFESSIONAL EXPERIENCE

Freelance Developer & AI Specialist

Jan 2026 – Present

Self-Employed

- ◆ Integrated the Claude API and Azure OpenAI across multiple production platforms — building custom AI agent workflows, RAG-style automated content processing pipelines, LLM-powered analytics interfaces, and agentic systems replacing manual operational processes.
- ◆ Built **Capitol Mirror** — AI-enabled SaaS with automated data ingestion, LLM-powered analytics interface, and governance controls; architected and shipped end-to-end from design through production deployment.
- ◆ Designed and implemented prompt engineering frameworks for production AI applications — structured prompts with validation, fallback logic, and drift-resistant output formats.

Operations Manager / AI & Systems Developer

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ◆ Served as the organization's primary AI and automation implementer — identified high-value use cases, facilitated solution workshops with leadership, designed and deployed AI-powered workflows, and trained the team on adoption.
- ◆ Built multi-step agentic automation pipelines connecting CRM, scheduling, and operational platforms; replaced manual hand-offs with intelligent, monitored workflows.
- ◆ Partnered directly with executive leadership to identify AI opportunities, explain complex concepts in business terms, and measure the operational impact of deployed solutions.

Data Analyst, Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ◆ Built data pipelines and ETL workflows on Microsoft Azure supporting enterprise-scale analytics and operational reporting; maintained data lineage documentation and governance standards.
- ◆ Developed executive dashboards and KPI frameworks using Power BI; presented findings to senior leadership and drove data-driven decision-making across Finance, Operations, and IT.
- ◆ Led cross-functional technology implementation projects; evaluated tools, defined requirements, and drove enterprise-wide adoption of new platforms.

Smartsheet Administrator

Aug 2023 – Feb 2024

SiteLogiQ, Remote (Contract)

- ◆ Built automated workflows using Python, C#, and Java; maintained API integrations and governance documentation across platform configurations.
