

Alexander Tobin

EDI & Integration Specialist | Functional Mapping & Documentation

(757) 289-1204 ♦ atobin@alum.utk.edu ♦ Virginia Beach, VA

CORE SKILLS

EDI transaction sets — ANSI X12: 810, 835, 837, 846, 850, 855, 856; EDIFACT familiarity

Trading partner onboarding — end-to-end lifecycle, configuration, mapping, validation, acknowledgements

EDI mapping lifecycle — mapping frameworks, business rules, routing logic, partner-specific processing

Integration protocols — FTP, SFTP, AS2; SPS Commerce platform; XML, JSON, flat-file formats

Technical documentation — source-to-target mappings, data lineage, integration specifications, process maps

SQL / MS SQL Server — database querying, data extraction, stored procedures

Microsoft Azure · API integrations · REST APIs · data pipeline development

Stakeholder facilitation — workshops, technical interviews, cross-functional knowledge capture

EDUCATION

Bachelor of Arts — Pre Law/Legal Studies, Business Concentration
University of Tennessee, Knoxville, TN — Aug 2019

CERTIFICATIONS

- ♦ Google Project Management Certification
- ♦ Google Analytics Certification

PROFESSIONAL SUMMARY

EDI integration specialist and technical documentation professional with hands-on enterprise experience in EDI mapping, trading partner onboarding, end-to-end transaction processing, and integration architecture documentation. Deep practical knowledge of ANSI X12 transaction sets (810, 835, 837, 846, 850, 855, 856), EDI mapping lifecycle, partner-specific processing rules, and FTP/SFTP/AS2 transmission protocols. Experienced conducting technical interviews and workshops with business and technical stakeholders to capture undocumented processes and produce comprehensive architecture documentation, source-to-target mappings, and integration specifications. Background in supply chain and retail integration environments at enterprise scale.

PROFESSIONAL EXPERIENCE

Freelance Developer & Integration Specialist

Jan 2026 – Present

Self-Employed

- ♦ Designed and built production data integration pipelines connecting external APIs, flat-file feeds, and database systems — including automated ingestion, transformation, validation, and routing logic across end-to-end workflows.
- ♦ Developed and maintained comprehensive technical documentation for all integration systems — covering data schemas, API specifications, ingestion pipeline logic, and data lineage records maintained in version-controlled repositories.
- ♦ Built Container Tracker — logistics tracking platform integrating live shipping APIs with a structured multi-stage data pipeline; full CRUD backend and production deployment.

EDI Integrations & Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ♦ Led end-to-end trading partner onboarding to Ferguson's enterprise B2B EDI platform — including partner setup, EDI mapping configuration, validation rule implementation, and transmission testing across FTP, SFTP, and AS2 connections.
- ♦ Developed expertise across key ANSI X12 EDI transaction sets: 810 (Invoice), 846 (Inventory Inquiry/Advice), 850 (Purchase Order), 855 (Purchase Order Acknowledgement), and 856 (Advance Ship Notice).
- ♦ Authored comprehensive EDI integration documentation — source-to-target mapping documents, vendor-facing integration guides, validation specifications, and data lineage records maintained in version-controlled repositories.

Supply Chain Data Analyst

Jan 2021 – Dec 2021

ZenEvo Chocolate, Knoxville, TN

- ♦ Analyzed supply chain data across planning, manufacturing, and procurement functions — tracked KPIs, identified integration dependencies, and produced documentation supporting operational decision-making.
- ♦ Collaborated cross-functionally with planning, procurement, manufacturing, and sales teams to capture business workflows and drive process improvements.

Data Analyst

Nov 2014 – Dec 2019

University of Tennessee, Knoxville, TN

- ♦ Built and maintained database files, data pipelines, and analytical reporting using Azure, MS SQL Server, SQL, Python, and Excel; produced technical documentation and workflow records for institutional data systems.
