PROFESSIONAL SUMMARY

Website administrator and systems integration specialist with hands-on experience managing web platforms, building cross-platform automation workflows, and ensuring data integrity across connected CRM, payment, and operational systems. Experienced in WordPress administration — site health, plugin management, performance optimization, and troubleshooting — alongside deep expertise in Zapier automation, REST API and webhook integrations, and CRM/database data mapping. Comfortable serving as the go-to technical resource for non-technical stakeholders, diagnosing integration failures rapidly, and maintaining platform reliability under SLA expectations. Fully remote, self-directed, and available to respond to critical issues quickly.

PROFESSIONAL EXPERIENCE

Freelance Web Administrator & Integration Specialist

Jan 2026 – Present

Self-Employed

- ♦ Administered and maintained WordPress sites across client engagements — plugin updates, site health audits, performance optimization, security monitoring, and proactive troubleshooting of plugin conflicts and broken integrations before they impact users.
- ♦ Built and maintained multi-step Zapier automation workflows connecting web platforms, CRM systems, payment processors (Stripe), and email marketing tools — ensuring reliable data flow across connected systems.
- ♦ Designed and implemented REST API and webhook integrations between web forms, payment gateways, CRM databases, and operational platforms; diagnosed and resolved data sync failures and integration disconnects.

Operations Manager / Systems Administrator

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ♦ Administered the organization's complete digital and systems ecosystem — web properties, CRM (Salesforce), payment processing (Stripe), email marketing (HubSpot, Mailchimp), and scheduling platforms.
- ♦ Built and maintained Zapier automation pipelines connecting CRM, registration, and payment systems; ensured data integrity across platforms and proactively resolved integration failures.
- ♦ Served as the internal go-to for all technology issues across leadership, finance, and operations teams — maintained rapid response standards for any system impacting revenue or client operations.

Smartsheet Administrator

Aug 2023 – Feb 2024

SiteLogiQ, Remote (Contract)

- ♦ Administered the full Smartsheet platform environment — built workflows, maintained API integrations, audited and cleaned up configurations, and provided end-user technical support.
- ♦ Ensured data accuracy and system reliability across platform integrations; maintained detailed documentation of all workflow logic and configuration records.

Data Analyst / Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ♦ Managed API integrations and data mapping across enterprise platforms — connected CRM, EDI, and operational systems via structured data pipelines; troubleshooted integration failures and maintained data consistency.
- ♦ Built reporting infrastructure and dashboards supporting Finance, Operations, and Marketing; served as technical resource for cross-functional stakeholders.
