customization, workflow rules,
process builder, data
integration

Marketing automation —
lifecycle campaign
architecture, triggered
communications, engagement
workflows

Audience segmentation ·
eligibility rules ·
prioritization frameworks ·
cross-functional stakeholder
alignment

Python · REST APIs · ETL
pipeline design · Microsoft
Azure

◆ EDUCATION

Bachelor of Arts — Pre Law/Legal
Studies, Business Concentration
University of Tennessee, Knoxville,
TN — Aug 2019

◆ CERTIFICATIONS

- ◆ Google Analytics Certification
- ◆ Google Project Management Certification
- ◆ DP-203: Data Engineering on Microsoft Azure (In progress)

◆ PROFESSIONAL SUMMARY

Marketing Cloud architect and CRM developer with hands-on production experience designing and building Salesforce Marketing Cloud solutions — including customer journey architecture, audience segmentation frameworks, email and lifecycle campaign automation, and data extension modeling. Experienced integrating SFMC with Salesforce CRM and third-party data platforms, developing AMPscript and SQL-driven personalization logic, and building automation workflows that operate reliably at scale. Background spans enterprise CRM development, cross-functional marketing and data team collaboration, and the governance and documentation practices that keep complex platform ecosystems maintainable.

◆ PROFESSIONAL EXPERIENCE

Freelance Developer & CRM Automation Specialist

Jan 2026 – Present

Self-Employed

- ◆ Designed and implemented marketing automation and CRM workflow solutions for clients — including audience segmentation logic, triggered communication flows, and lifecycle campaign architecture across email and engagement channels.
- ◆ Built data ingestion and transformation pipelines feeding CRM and marketing platforms — structured data extensions, audience qualification rules, and suppression logic ensuring accurate, compliant campaign delivery.
- ◆ Developed and maintained integration layers connecting CRM platforms with external data sources and marketing tools via REST APIs and automated pipelines.

Operations Manager / CRM & Systems Developer

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ◆ Architected and administered the organization's CRM platform — built workflow automations, lifecycle communication sequences, audience segmentation frameworks, and client engagement pipelines across email and operational channels.
- ◆ Developed multi-step automation workflows connecting CRM, scheduling, and operational platforms; designed triggered communication flows with escalation paths and manual override points.
- ◆ Partnered with leadership to translate business requirements into CRM and marketing automation architecture — defining audience qualification logic, suppression strategies, and engagement prioritization rules.
- ◆ Established governance and documentation standards for all CRM and automation configurations — ensuring platform reliability, maintainability, and compliance.

Data Analyst / Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ◆ Developed extensively within Salesforce and enterprise CRM platforms — building custom workflows, data integrations, reporting layers, and automation configurations supporting large-scale sales and operations functions.
- ◆ Designed and maintained data pipelines on Microsoft Azure integrating CRM data with enterprise analytics systems; built SQL-based audience and reporting queries against large-scale operational databases.
- ◆ Led cross-functional CRM and systems integration projects — gathered requirements from marketing, operations, and IT stakeholders, defined data architecture, and drove enterprise-wide platform adoption.

Smartsheet Administrator

Aug 2023 – Feb 2024

SiteLogiQ, Remote (Contract)
