

Alexander Tobin

Product Manager | AI & Full-Stack Developer

(757) 289-1204 ♦ atobin@alum.utk.edu ♦ Virginia Beach, VA

CORE SKILLS

Product roadmap definition & architecture review

Full-stack development
(Next.js, React, TypeScript, Node.js)

Python scripting & API integration

AI Agent / LLM integration
(Claude API, Azure OpenAI)

Microsoft Azure · Supabase / PostgreSQL

REST APIs & custom connectors

No-code/low-code (Airtable, Smartsheet)

CI/CD & production deployment

Git / GitHub · Cross-functional communication

EDUCATION

Bachelor of Arts — Pre Law/Legal Studies, Business Concentration
University of Tennessee, Knoxville, TN — Aug 2019

CERTIFICATIONS

◆ Google Project Management Certification

◆ Google Analytics Certification

◆ DP-203: Data Engineering on Microsoft Azure (In progress)

◆ AWS Certified DevOps Engineer (In progress)

PROFESSIONAL SUMMARY

Product manager and full-stack developer with hands-on experience defining product roadmaps, building production AI-enabled applications, and bridging business requirements with technical execution. Proficient in Next.js, Python, and Azure — with direct experience designing AI agent workflows, deploying enterprise SaaS platforms, and evaluating technical architecture for business feasibility. Comfortable leading from specification through deployment in fast-moving environments.

PROFESSIONAL EXPERIENCE

Freelance Developer & Data Analyst Contractor

Jan 2026 – Present

Self-Employed

- ◆ Built and shipped AdvisoryCloud 3.0 — mobile-first SaaS platform (React 18, Supabase, Tailwind, PWA) from zero to production in 7 days; defined product requirements, designed architecture, and led full implementation including AI-assisted workflows, real-time messaging, and 15+ database tables.
- ◆ Built Capitol Mirror — AI-enabled subscription data product (Next.js, TypeScript, Supabase, Stripe) with automated GitHub Actions pipeline, Stripe billing (Free / \$30 / \$65/mo tiers), natural language data interface, and DigitalOcean/PM2 production deployment.
- ◆ Built Container Tracker — full-stack logistics tool (React, Supabase, Vercel) integrating live shipping APIs with 6-stage status pipeline, CRUD backend, and fleet analytics dashboard.

Operations Manager / Systems Developer

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ◆ Defined and delivered full Airtable enterprise application infrastructure: product requirements, linked record architecture, role-based interfaces, multi-step automations, and API integrations.
- ◆ Directed AI-assisted development of mobile application features; managed scope, evaluated technical feasibility, and oversaw deployment.
- ◆ Integrated platform with third-party systems and external data sources; implemented custom JavaScript scripting for advanced business logic.

Data Analyst, Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ◆ Led data integration projects merging multiple enterprise data sources on MS Azure and MS SQL Server; defined technical requirements and managed delivery across IT, Finance, and Operations.
- ◆ Built centralized Airtable project management system adopted company-wide; automated reporting using Excel VBA and Azure Data Factory.
- ◆ Evaluated and implemented new tooling across the organization; bridged business requirements with technical execution.

Smartsheet Administrator

Aug 2023 – Feb 2024

SiteLogiQ, Remote (Contract)

- ◆ Defined and implemented custom Smartsheet solutions using Python, C#, and Java; designed automated workflows and managed platform integrations across enterprise systems.
