PROFESSIONAL SUMMARY

Senior data analyst with deep SQL expertise and a strong background in enterprise data development, ETL pipeline design, data warehouse architecture, and technical documentation. Experienced writing complex queries, building data transformation logic, designing fact tables and historical data structures, and producing governance-ready documentation including data definitions, source-to-target mappings, and business rules. Proven ability to deliver independently as a contractor in remote environments with evolving requirements.

PROFESSIONAL EXPERIENCE

Freelance Developer & Data Analyst Contractor

Jan 2026 – Present

Self-Employed

- ♦ Designed and built production data platforms with structured PostgreSQL schemas, complex query logic, and data transformation pipelines — including source-to-target mapping, validation rules, and quality monitoring at every ingestion point.
- ♦ Built Capitol Mirror — enterprise-scale data ingestion platform converting government STOCK Act filings into structured, queryable analytics; designed fact-style tables, historical data structures, and governance documentation throughout.
- ♦ Built Container Tracker — logistics data tool with a 6-stage transformation pipeline, cross-system reconciliation, and real-time status validation.

Senior Data Analytics Manager

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ♦ Owned data architecture and analytics infrastructure across multiple business functions; maintained data definitions, metric documentation, and governance standards ensuring consistency across reporting outputs.
- ♦ Partnered with technical and non-technical stakeholders to define data requirements and translate business logic into technical implementations.

Supply Chain Analyst

Aug 2024 – Nov 2024

Born Primitive, Virginia Beach, VA

- ♦ Validated and reconciled multi-source datasets across inventory, carrier, and compliance systems; documented business rules and data definitions for operational reporting.
- ♦ Identified and resolved cross-system data discrepancies with clear technical documentation of root cause and resolution.

Data Analyst, Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ♦ Developed complex SQL queries and database objects against large MS SQL Server databases supporting B2B e-commerce operations; wrote stored procedures, views, and transformation logic for downstream reporting and analytics.
- ♦ Designed and implemented ETL workflows on Microsoft Azure translating legacy data structures into modernized reporting-ready datasets.
