primelayertrades.com

- ♦ Research, structure, and publish fully specified multi-leg options strategies across equities, ETFs, and index products; every idea includes underlying, structure, strikes, expirations, net debit/credit targets, entry/exit levels, maximum loss, adjustment triggers, and invalidation conditions.
- ♦ Specialize in short-premium and defined-risk structures — iron condors, credit spreads, calendars, diagonals, covered positions — with sizing rationale consistent with margin requirements and the trade's volatility regime.

Self-Directed
