

Alexander Tobin

Data Engineer & AI Platform Developer

(757) 289-1204 ◆ atobin@alum.utk.edu ◆ Virginia Beach, VA

◆ CORE SKILLS

◆ EDUCATION

Bachelor of Arts — Pre Law/Legal Studies, Business Concentration
University of Tennessee, Knoxville, TN — Aug 2019

◆ CERTIFICATIONS

- ◆ DP-203: Data Engineering on Microsoft Azure (In progress)
- ◆ AWS Certified DevOps Engineer (In progress)
- ◆ Google Analytics Certification
- ◆ Google Project Management Certification

◆ PROFESSIONAL SUMMARY

Data engineer and full-stack developer with hands-on experience designing cloud-native data platforms, building automated ingestion pipelines, and deploying AI-enabled tools for business users. Proficient in Python, SQL, Azure, and Power BI — with direct experience building production-grade data pipelines, structured API integrations, and conversational AI applications. Strong focus on data governance, documentation, and building maintainable systems that non-technical stakeholders can use confidently.

◆ PROFESSIONAL EXPERIENCE

Freelance Developer & Data Analyst Contractor

Jan 2026 – Present

Self-Employed

- ◆ Built Capitol Mirror — full-stack data platform (Next.js, TypeScript, Supabase/PostgreSQL) with automated GitHub Actions ingestion pipeline converting government STOCK Act filings into structured, queryable datasets; implemented schema controls, validation rules, and data quality checks at ingestion; managed governance and access via row-level security.
- ◆ Built Container Tracker — logistics data tool integrating live shipping APIs with a structured 6-stage ETL pipeline, full CRUD persistence layer, and fleet-wide analytics dashboard; designed REST API connectors and managed data freshness monitoring.
- ◆ Built AdvisoryCloud 3.0 — SaaS platform (React, Supabase) with 15+ normalized database tables, real-time data sync, and Edge Functions (Deno); deployed conversational and AI-assisted features integrated into the user interface.

Senior Data Analytics Manager

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ◆ Designed and maintained data infrastructure supporting analytics, marketing, and operations; implemented automation workflows reducing manual processing overhead.
- ◆ Directed AI-assisted development of mobile application features; evaluated outputs and governed deployment within secure production environments.
- ◆ Collaborated with IT and cross-functional teams to align data architecture with business requirements.

Data Analyst, Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ◆ Built and managed data pipelines in MS Azure and MS SQL Server supporting B2B e-commerce operations at scale; designed ingestion frameworks from multiple vendor data sources.
- ◆ Developed ETL automation using Azure Data Factory and Excel VBA; implemented validation rules and quality monitoring at ingestion points.
- ◆ Built Power BI dashboards and data models for leadership; managed data governance, access controls, and documentation standards.

Smartsheet Administrator

Aug 2023 – Feb 2024

SiteLogiq, Remote (Contract)

- ◆ Built automated data workflows using Python, C#, and Java; maintained data schemas, pipeline documentation, and system configurations.
- ◆ Administered access management, permissions, and governance across the platform.
