

ALEXANDER TOBIN

(757) 289-1204 ♦ atobin@alum.utk.edu ♦ Virginia Beach, VA

CORE SKILLS

LLMs · Prompt Engineering ·
Context Window Management ·
Anthropic Claude API · AI
Strategy & Governance

API Integration &
Administration · REST APIs ·
Python · JavaScript (basic) ·
SQL

Workflow Automation (Power
Automate, Zapier, Airtable,
GitHub Actions) · Internal
Tooling

Technical Documentation & SOPs
· Training Program Design ·
Vendor Management · SaaS
Procurement

Microsoft Azure · Supabase ·
Vercel · Git / GitHub · Azure
DevOps · Project Management
(Agile, JIRA)

EDUCATION

Bachelor of Arts — Pre Law/Legal
Studies, Business Concentration
University of Tennessee, Knoxville,
TN — Aug 2019

CERTIFICATIONS

- ♦ Google Project Management
Certification · UVA Project
Management Course
- ♦ Google Analytics Certification ·
Google Ads Certification
- ♦ DP-203: Azure Data
Engineering (In Progress) · AWS
Certified DevOps Engineer (In
Progress)

PROFESSIONAL SUMMARY

AI practitioner and technology operations specialist with hands-on experience deploying and integrating large language models — including the Anthropic Claude API — across production environments. Builder by instinct: closes workflow gaps with internal tooling, automation, and data pipelines. Skilled at translating AI concepts for non-technical stakeholders and driving adoption in professional service environments. Pre-law academic background (University of Tennessee) brings genuine affinity for legal operations and compliance-aware AI deployment.

PROFESSIONAL EXPERIENCE

Freelance Developer & Data Analyst

Jan 2026 – Present

Self-Employed

- ♦ Deployed and integrated Anthropic Claude API across client workflows; built prompt libraries, configured context management, and implemented AI-assisted automation pipelines for production use.
- ♦ Built Capitol Mirror — full-stack SaaS (Next.js, Supabase, Stripe) with automated data pipeline, subscription tiers, and push notifications; live in production.
- ♦ Built AdvisoryCloud 3.0 — mobile-first SaaS (React 18, Supabase) with real-time messaging and 15+ database tables with RLS; zero to production in 7 days.

Operations Manager / Systems Developer

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ♦ Led internal AI tool adoption and workflow automation; trained team members on tools, built internal reference materials, and drove measurable efficiency gains across departments.
- ♦ Built full Airtable infrastructure: relational architecture, role-based interfaces, automated workflows, and client-facing dashboards; integrated with third-party tools via API triggers.
- ♦ Designed branded intake forms with conditional logic and validation; implemented custom JavaScript scripts for advanced automation edge cases.

Data Analyst / Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ♦ Managed vendor relationships with SaaS and platform providers; led onboarding, performance oversight, and escalation resolution for enterprise B2B integrations.
- ♦ Built Azure and MS SQL Server data pipelines supporting ecommerce operations at scale; developed Power BI executive dashboards and KPI frameworks.
- ♦ Designed and deployed centralized project management system adopted company-wide; led cross-functional implementation with training and documentation.

Smartsheet Administrator

Aug 2023 – Feb 2024

SiteLogiq, Remote (Contract)

- ♦ Administered platform security, user access controls, and permissions; built automated workflows and documented configurations for end users.
