APPLYING FOR

Technical Co-Architect

ProSwing Marketing

INTRODUCTION

I'm a builder who ships real products — websites, AI agent integrations, workflow automation pipelines, and connected business systems. I move fast, document as I go, and genuinely enjoy finding the right tool: visual builder, no-code automation, or custom API integration.

TECHNICAL BACKGROUND

Web

Next.js · React · Framer · Webflow · WordPress · HTML/CSS/JS · Supabase · Vercel

AI

Claude API · Azure OpenAI · AI agent workflows · automated lead-gen pipelines

Automation

Zapier · Make.com · Power Automate · Airtable Automations · API/webhook integrations

Social

Meta Ads · automated posting pipelines · Google Analytics · UTM tracking

Dev

Git/GitHub · CI/CD · Python · PostgreSQL · DigitalOcean

EXPERIENCE

Freelance Developer & AI Specialist

Jan 2026 – Present

Building production websites and AI agent workflows for real clients — from architecture through live deployment.

Operations Manager / Systems Dev

Catalyzt Nutrition · 2024–2026

Led all AI and automation implementation from scratch — CRM integrations, scheduling pipelines, and operational dashboards.

Data Analyst / Project Manager

Ferguson Enterprises · 2022–2024

Automation workflows, API integrations, and executive dashboards at enterprise scale.

PORTFOLIO PROJECTS

PrimeLayer Solutions

primelayer.solutions

Full B2B services site — designed and coded in Next.js, deployed to Vercel.

Kizuna Performance

kizunaperformance.com

Performance coaching site with modern design and live content management.

CallCatch AI

callcatchai.online

AI-powered call management SaaS — integrated AI workflows and client dashboard

WHY THIS FITS

- **Ships fast and independently**
No ramp-up needed — I assess and execute.
- **Right tool for every job**
Visual builder, no-code, or custom API — whatever fits.
- **Works directly with business owners**
I've scoped and delivered solo for real clients.
- **Documents everything I build**
Clients own and maintain the work after I'm done.
- **Energized by new platforms**
New APIs and AI tools are a feature, not a burden.

EDUCATION & CERTIFICATIONS
