SQL · Python · Microsoft Azure

EDUCATION

Bachelor of Arts — Pre Law/Legal Studies, Business Concentration
University of Tennessee, Knoxville, TN — Aug 2019

CERTIFICATIONS

- ♦ Google Analytics Certification
- ♦ Google Project Management Certification
- ♦ DP-203: Data Engineering on Microsoft Azure (In progress)

PROFESSIONAL SUMMARY

Analytically driven financial and operational analyst with experience supporting cross-functional finance and supply chain teams across consumer products and ecommerce environments. Skilled in financial modeling, KPI framework development, inventory and demand analysis, and executive-level reporting. Experienced leveraging AI tools — including the Claude API — to automate forecasting workflows, eliminate manual reporting processes, and build scalable planning infrastructure. Combines strong Excel and Power BI capabilities with an operational mindset to connect financial data to supply chain and business decisions.

PROFESSIONAL EXPERIENCE

Freelance Developer & Data Analyst Contractor

Jan 2026 – Present

Self-Employed

- ♦ Integrated the Claude API and Azure OpenAI across production platforms to automate reporting workflows, data processing pipelines, and analytical outputs — directly applicable to AI-enabled forecasting and planning automation.
- ♦ Built structured financial and operational data platforms with automated ingestion, transformation, and reporting layers replacing manual processes.

Senior Data Analytics Manager

Nov 2024 – Jan 2026

Catalyzt Nutrition, Virginia Beach, VA

- ♦ Owned financial and operational KPI framework across the organization — defined metrics, built a single source of truth for executive reporting, and maintained data definitions and governance standards.
- ♦ Developed bottom-up reporting models supporting budgeting and operational forecasting discussions with executive leadership; partnered with finance, clinical, and operations stakeholders to translate business requirements into planning outputs.
- ♦ Automated recurring financial and operational reporting workflows; ensured accuracy and consistency of all outputs presented to leadership.
- ♦ Identified and implemented process improvements that reduced manual reporting overhead and improved planning cycle efficiency.

Supply Chain Analyst

Aug 2024 – Nov 2024

Born Primitive, Virginia Beach, VA

- ♦ Analyzed inventory, demand trends, and carrier performance across a consumer products supply chain; maintained scorecards tracking OTIF, service level, and compliance KPIs against targets.
- ♦ Identified supply chain inefficiencies and worked cross-functionally with operations and procurement to recommend corrective actions.
- ♦ Reconciled multi-source datasets to ensure data accuracy across inventory and logistics reporting.
- ♦ Created and documented SOPs for supply chain management processes supporting scalable operations.

Data Analyst, Project Manager

Mar 2022 – Jul 2024

Ferguson Enterprises Inc., Remote

- ♦ Built Power BI financial dashboards and KPI reporting frameworks adopted across Finance, Operations, and IT at a large enterprise; defined metric standards and version-controlled specification documentation.

Ecommerce Data Analyst

Jan 2021 – Dec 2021

ZenEvo Chocolate, Knoxville, TN
